Bluewater Power Is Moving to Monthly Billing Starting January 2017!

What Does This Mean For You?

★ Smaller, more manageable payments ★ More timely energy consumption information ★ Better alignment with other bills and expenses

Why the Change to Monthly Billing?

The Ontario Energy Board, our industry regulator, has mandated that all electric utilities in the province switch to monthly billing by 2017 for all customers.

Will My Bill Look Different?

- Your billing period will reflect approximately 30 days rather than 60 days.
- Your bill payments will be due monthly.
- If you are currently billed for water by Bluewater Power, these bills will also be issued monthly, with estimated and actual readings alternating each month.

When Will I be Moved to Monthly Billing?

Beginning December 2016, we will issue your last bi-monthly electricity bill. Approximately 30 days later you will receive your first monthly bill.
